Wind Spinners

Wind Spinners & twirlers give color and whimsy to any setting! These silent spinners are fascinating and colorful; being full of action, yet quiet. There are metal twirliers, nylon as well as glass globe spinners - in other words, something for everyone. They will twirl in the slightest breeze; and the high quality craftsmanship means they will last for a long, long time.

Indoor Whimsy & Accessories

Whimsical items aren't confined to the outdoors... bring some color and whimsy inside with the items on this page. Bring a twirler inside and watch it spin with the help of a spinner motor... or display a resin wall plaque to bring the outdoors in... There is even an "indoor windchime" that chimes with the help of batteries. There's much to choose from here... enjoy!
